Dear Prospective Sponsor,

On Saturday, October 19, 2019, Region VI of the California Narcotic Officers' Association (CNOA) will be hosting its annual charity golf tournament at the River Course at the Alisal in Solvang. This year our event will be in memory of our own Region 6, Sergeant Ron Helus 4S3 who was killed in the line of duty on November 8th 2018 in Thousand Oaks

The success of our organization comes from the generous donations and contributions from various businesses and individuals throughout the Tri-County area and across the State of California. The proceeds from this event will be donated to the CNOA Survivor's Memorial Fund (SMF). The Survivor's Memorial Fund generously gives a check to the family of any California law enforcement officer who is killed in the line of duty. This immediate financial assistance is vital to the well-being of the family members during the shocking first days following the death.

The next time you watch television and learn a police officer has been killed in the State of California, SMF will already be in the process of making an immediate contribution to the family. Since its inception, SMF has assisted more than 250 families in their time of need.

There are several ways that you can help support our cause: monetary sponsorship (see Sponsorship Levels on next page), or door prizes and/or donate auction items. In return for your contribution, your business will be recognized at our Awards Ceremony and listed in the tournament flyer given to all players.

We operate strictly as a non-profit organization and ask that you support us in our endeavor. Your donation is greatly appreciated and will help make this event a success. If you have any questions or concerns please contact Region VI Secretary Corina Lozano at the Thousand Oaks Police Department **(805) 371-8398**.

For your business tax records our non-profit tax ID # is **95-4462989** and again, thank you for your consideration. A receipt for your donation will be provided upon request.

Sincerely,

Esther Trejo
